

Vuba Trowel Cleaner

Product Datasheet

Product Description:

Vuba Trowel cleaner is a solvent-based product which is non-hazardous, non-flammable, non-corrosive and non-carcinogenic. Designed as a safe alternative to xylene, Vuba Trowel Cleaner can be used to clean down all manner of tools used in resin-laying, from trowels to forced-action mixers, paddles and wheelbarrows. Being non-flammable means it is much safer to have on-site than xylene, which has a flash-point of just 32°C.

Non-hazardous

Non-flammable

Non-corrosive

Non-carcinogenic

Precautions:

Wear gloves when using.
Refer to SDS for any issues.

How to Use:

Trowel cleaner can be used whilst laying, to keep the users trowel free from excess resin and aggregate. Simply brush a small amount of the product over the face of the trowel at regular intervals. Trowel cleaner will easily remove polyurethane resins, epoxy resins and paints.

Properties:

Property	Value
Appearance	Colourless transparent liquid
Ester Content %	98.5 min
Diisobutyl Succinate %	15-25
Diisobutyl Glutarate %	55-65
Diisobutyl Adipate %	10-25
Moisture %	0.2 max
Density (20°C g/ml)	0.950-0.968
Acid value (mgKOH/g)	1.0 max
Color (APHA)	50 max
Distillation Range	253-295
